SAFETY SPECTACLES

Inertia IA120AF

- Unique Flarefit™ temple design
- Dielectric (no metal parts)
- Lightweight polycarbonate frame
- Treated with our exclusive Duramass® scratch-resistant coating
- Single, flexible, lightweight polycarbonate lens that blocks out 99.9% of ultraviolet rays while providing excellent orbital seal

Klondike Metal KD218

- Spring-hinge metal alloy temples
- Strong, lightweight polycarbonate lens with 11 degree base curve
- Non-slip rubber head grips
- New temple sleeve designed for breakaway cord
- Twin bridge adjustable nose piece
- Filters 99.9% of U.V. Radiation

Klondike Plus KD11B

- 5-position ratchet temples
- Gel nose piece for long wearing comfort
- Duramass® scratch-resistant coating
- Strong, lightweight polycarbonate lens with 11 degree base curve
- Filters 99.9% of U.V. radiation
- Meets or Exceeds ANSI Z87+

Klondike Plus Amber Anti-fog ST1130

- The Legendary All Rounder - Any Application, Anywhere
- 5-position Ratchet Temples
- Gel Nose Piece for Long Wearing Comfort
- Strong, Lightweight Polycarbonate Lens with 11 degree Base Curve
- Fully Adjustable
- Filters 99% of U.V. radiation

Law OTG OG110AF

- Dielectric design
- Excellent orbital seal
- Treated with our exclusive Duramass AF4 anti-fog coating
- Higher level of protection from side impacts
- Thermal plastic rubber temple inserts
- Filters 99% of U.V. radiation

SAFETY SPECTACLES

Rattler Clear Anti-fog RT120AF

- Double Deadly
- Interchangeable 3-position Ratcheting Bayonet Temples and an Adjustable Head Band with Each Pair
- Head Band with Hook and Loop Closure to Adjust with One Hand while Wearing
- Full Length, Non-slip TRP Temple sleeves for Comfort and Grip
- Lightweight Nylon Frame

RT2 R2120

- Treated with our exclusive Duramass® scratch-resistant coating
- Certain styles also meet European CE (EN166) safety standards
- Meets or exceeds ANSI Z87.1 safety standards
- Can be used as a prescription frame

Storm Welding Shade 3 ST1130Green

- Radiation Busting Comfort
- 5-position Ratchet Temples
- Gel Nose Piece for Long Wearing Comfort
- Strong, Lightweight Polycarbonate Lens with 11 degree Base Curve
- Soft Temple Sleeve

Stratos Clear SS110

- Traditional Fit & Function
- One Piece Polycarbonate Lens
- Integral Sideshields
- Traditional Design
- Adjustable Temples
- Filters 99% of U.V. radiation

Tremor 9688

- Dielectric
- Gel nose piece
- Non-slip gel temple sleeves
- Nylon coated neoprene carrying case
- Duramass® scratch resistant coating
- Meets or exceeds ANSI Z87+ standard

Tribal 96731T

- Strong, lightweight polycarbonate lens
- Duramass® scratch-resistant coating
- Exclusive Duramass® AF4 anti-fog coating (TB112 AF model only)
- Meets military MIL-PRF-31013 clause 3.5.1.1 for high velocity impact protection
- Meets or Exceeds ANSI Z87+ standard
- Satin carrying case

Arcshield Welding Helmet AZ400

The welding helmet offers protection against extremely bright lights and ensures protection for anyone involved in welding. It is well ventilated to allow for longer lasting comfort.

www.saharaworkwear.com

LENS APPLICATION CHART

-  **Clear:** Provides excellent optics for general applications where impact protection is required. Nominal 85% VLT.
-  **Grey:** For outdoor use where light and glare can cause eye strain and fatigue. Nominal 12% VLT.
-  **Light Mirror Tint:** For optional indoor/outdoor applications. Serves the same purpose as grey lens yet allows more visible light through the lens. Reduces glare from artificial light such as halogen and fluorescent. Nominal 39% VLT.
-  **Amber:** Blocks the blue portion of the visible light spectrum, creating maximum contrast enhancement, particularly in low light. Nominal 85% VLT.

-  **Dark Brown:** Outdoor protection from glare and reflection. This product is a code 2 shade 3 filter approved to AS/NZS 1338.2. Code 2 filters may affect colour perception for some wearers.
-  **Light Brown:** Outdoor applications where sunlight and glare cause eye strain and fatigue. Meets colour traffic signal recognition requirements. Nominal 24% VLT.
-  **Light Blue:** Serves the same purpose as the grey lens, yet allows more visible light through the lens for optional indoor/outdoor applications. Reduces glare from artificial light such as halogen and fluorescent. Nominal 47% VLT.

-  **Blue and Silver Mirror:** For outdoor use where sunlight and glare cause eye strain and fatigue. 'Mirror' coating reflects light, reducing the amount of light that passes through the lens. Nominal 9% VLT.
-  **Vermillion:** Enhances contrast while reducing all colours equally for optimum colour recognition. Ideal for indoor inspection. 55% VLT.
-  **Filter Shades:** Protects against ultra-violet and infrared radiation
Shade 3.0 generated when working with molten metal, and in welding, cutting, soldering and brazing. Please consult your eyewear provider for further information.
Shade 5.0
